MEMORANDUM FOR : All CS Historical Officers and Writers
SUBJECT : Outlines for CS Historical Papers

We have frequently mentioned the value of preparing an outline or "plan" of a historical paper before sitting down to write it. The attached excerpt from an ORR Research Aid provides excellent guidance on this subject. Although it was prepared for DDI analysts and is directed toward the writing of finished economic intelligence reports, the principles and techniques set forth in this paper are equally applicable to the outlining of CS historical papers.
